**(54) CLOTHES  
REFRESHING DEVICE****(57) Abstract:**

**PURPOSE:** To provide a device having a refreshing function such as the removal of wrinkles and deodorization of clothes.

**CONSTITUTION:** By circulating hot and humid air produced by a steam-generating means 12 inside a housing 1 in which clothing 2 has been housed, moisture and heat is given to the clothes 2, so that the recovery of fibers is promoted and the wrinkles of clothes are removed. The odor attached to the clothes 2 can also be deodorized by circulating hot and humid air. The moisture and the components of odor dissolved thereinto are drained outside the device as water.
